COLLEGE OF AGRICULTURE

Madison 6

DEPARTMENT OF GENETICS

January 22, 1957

Dr. Seymour Benzer  
Biophysical Laboratory  
Purdue University  
Lafayette, Indiana

Dear Seymour:

Good!

We will pick you up at the depot according to your letter.

The rumor to which you refer is as usual only half correct. The proposals have been made and we are pondering them carefully, but are a long way from a definite conclusion. What would you advise?\*

Yours sincerely,

Joshua Lederberg  
Professor of Genetics

JL:nhn

\* Turn it down, and recommend me. \*\*  
Seymour

\*\* and if Seymour turns it down recommend me  
Alan
